News Release

Annual hydrant flushing program continues Aug. 1 in Section 12

All hydrants in area of 2nd, Skyline affected; southwest to Radio, Timberlane

ARKANSAS CITY, Kan. (July 29, 2016) — The City of Arkansas City is continuing its annual fire hydrant flushing program, with work proceeding in far northwest Arkansas City starting next week.

The Environmental Services Division will begin flushing Section 12 — which includes all fire hydrants in the area of Second Street and Skyline Road, southwest to Radio Lane and Timberlane Drive, and further southwest to 23rd Street and Kansas Avenue (west of 15th Street) — at 8 a.m. Monday.

Flushing will continue in that area for several days. All flushing will be conducted between 8 a.m. and 3 p.m. Mondays through Fridays only.

Water customers in this area might experience temporary discoloration or low water pressure during this fire hydrant flushing program.

Most discoloration can be corrected by flushing a faucet for a few minutes, but if flushing does not correct the problem or if you continue to notice a pressure loss, call (620) 441-4420 or (620) 441-4492.

The Public Works Department advises that you do not wash laundry if your water is discolored because that can stain the items.

If laundry does become stained, please leave the items wet, call one of the numbers above and a detergent designed to remove the stains will be delivered to your address.

“Thank you for your cooperation during this fire hydrant flushing program,” said Public Works Director Eric Broce.
